August 22, 2014

Dear Valued Customer,

Our polyethylene resin suppliers have informed us of their intentions to implement a resin price increase effective September 1st. Production disruptions and improving global and domestic market demand have caused a tightness in supply which makes this increase likely.

In response to the September 1st resin increase, all new orders received on or after September 22nd will be priced at a 6% increase. This increase is in addition to all previously implemented Sigma Stretch Film increases.

All orders must call for immediate delivery. Based on current lead-times and shortness of resin supply, Sigma Stretch Film can only accept a limited number of new orders. Sigma Stretch Film reserves the right to accept or decline all orders for any reason. Please check with your local plant location.

Orders placed at current prices will be limited to less than one month of your normal purchase levels. Pricing for orders accepted is based upon local lead-times and available resin.

As always, Sigma Stretch Film strives to communicate these increases with adequate lead time and when they are likely to be implemented. Sigma Stretch Film will adjust our position should this resin increase be modified or unsuccessful.

Your Sigma Stretch Film sales representative will be in contact with you to answer any of your questions and advise you of changing market conditions.

Sincerely,

Brian K. Fraser
National Sales Manager- Canada
