

PadPak[®] SR

Superior protection,
Versatile applications

Performance

Unique pad design offers optimal protection

Flexible

Multiple paper types, modes of operation and accessories

Cost effective

Less material needed to provide optimal protection

The **best performing cushioning solution** for in the box **protective packaging**

The paper pad has tremendous shock absorbing capacity which means that the product will not be damaged when a box drops during shipment. The PadPak SR converts 2 or 3 layer paper into exceptional cushioning pads which can be used to protect fragile products during shipment or storage.

Go Green

Our company works with FSC and SFI certified suppliers. Paper is a recyclable and a renewable source.

Specifications:

Converter

- Dimensions: 34" x 13" x 65"
- Weight: 495 lbs.
- Power: 120 VAC, 60 Hz, 10.4 Amps
- Feed Rate: 16" per second
- Cut Method: Automatic

Paper

- Paper Options:
 - 2-Ply: 30/30, 30/50, 50/50
 - 3-Ply: 30/30/30, 30/50/30
- Roll length (ft.): 450, 900, 1,350
- Roll weight: varies by ply configuration
- Paper width: 30"

Our Added value

Packaging Engineering

Ranpak will analyze your current packaging solution and perform a drop test, demonstrating how much shock is transmitted to your products through the packaging. Ranpak then suggests proper packaging techniques to improve protection and save costs.

Integrated Applications

The Ranpak Custom Engineering department can design modifications, customizations and other innovative solutions to integrate the packaging converter anywhere around, above or under a packing area.

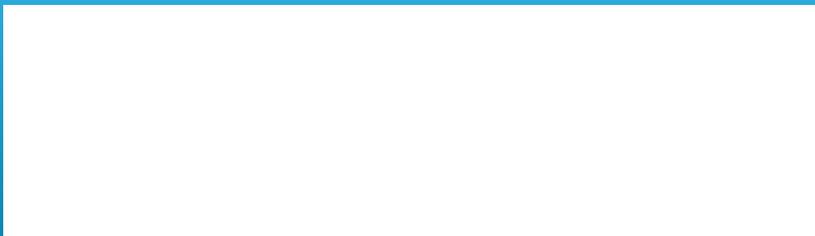

Packaging Training

Training from our packaging experts can help your packers use up to 20% less packing material without compromising the quality of the packaging.

Successful in these industries

Aerospace	Business Services	Automotive	Chemical/Plastics
Electronics	Industrial Parts	Machinery/Engines	Warehouse
